

# 6th NCSQCC 2018

# SUNCITY SCHOOL

## MISSION STATEMENT

Suncity School provides a challenging and supportive environment for the best possible programme of academic and personal development. The school is committed to building the child's confidence and self-esteem and offers a strong developmental programme where integrated studies and hands on participation inspire a love of learning and accomplishment. The school also encourages self-discipline, creativity, independence of thought and tenacity of purpose with the understanding that both success and failure are necessary for learning. Suncity School intends to develop social awareness by honouring all religions and promoting commitment to the community and nation as a preparation to taking their rightful place in the world.

# PHILOSOPHY

## Message from Vice Chairman, Mr. Ankit Goel

*Where quality is never on the sidelines*

Dear Educator,

All of us are faced by three challenges:  
Each day, in every school, in every class, the part each lesson plays is: leadership is nothing if the children cannot decide to be great. And that is *the yardstick*.

The code of intelligence in achieving the above is: When the *yardstick* is quality, thinking becomes international.

We do not ask or debate what more can we change but rather do the *yardsticks* change every year!

I am convinced that if we take the above as consideration in the education and over-all development of our students, their lives will leap phenomenally over the gaps.

Let our world teams meet and find out if we are keeping quality moving.  
It gives me immense pleasure to invite you to the 21<sup>st</sup> International Convention on Students' Quality Control Circles (ICSQCC) on [dates] at Suncity School, Gurugram, Haryana, India.

Please read the full information in the attached document and register your school by visiting the school website/clicking on the link below.

There is no satisfaction greater than being a life-changer. Hence, let us keep quality moving and the world will stop aging.

Yours sincerely,

**Ankit Goel,**  
**Vice Chairman**

## Message from President of WCTQEE, Dr Jagdish Gandhi

6<sup>th</sup>  
**NCSQCC**  
2018

I am indeed elated to know that the Suncity School is organizing the 6<sup>th</sup> National Convention of the Students Quality Circle, from 22<sup>nd</sup> November to 24<sup>th</sup> November, 2018.

The need for quality has been the outcome of three distinctive phenomena: technological development, globalisation of business and diversification of social values. This in turn demands product quality, process quality and human quality.

When we aspire for attending these attributes, it naturally calls for the Total Quality Person ( TQM) for Total Quality Management of which Quality Circle is an integral part. And its only possible if we “Catch them Young” meaning school students in their impressionable age by using the format of Quality Circle under the win-win ambience. This is what I learnt in Japan in 1992 while studying the philosophy of Kaizen. It later paved the way of launching students quality circles in academics with the pilot project “Jai Jagat” at the school level in my City Montessori School in 1993 for the first time in the world.

The unique superior group dynamics of quality circle enriches our students with the virtues of justice, equality, compassion, brotherhood, sacrifice and unity of hearts beside problem solving, communication and team working skills. They thus became both ‘Good’ and ‘Smart’. They can then deliver the goods as stated or as implied by the society, nation and world at large when they grow up as professionals.

I feel happy that Students’ Quality Circles have spread around the globe. I also acknowledge the creative role of the eminent members of the WCTQEE in spreading this philosophy religiously in the world.

I wish the Sixth National Convention of Students Quality Circles a grand success and I congratulate the organisers who are doing great service to mankind by hosting such a life changing event that promotes ‘Human Quality’ and ‘Global Unity’ laced with the sacred thread of Excellence and commitment.

**(Dr Jagdish Gandhi)**

Founder Manager,

CMS, Lucknow, India

## Message from President of QCFI

6th  
**NCSQCC**  
2018

I am happy to know that Suncity School is hosting National Convention on Students Quality Circles. The participating students are fortunate to get introductions of an excellent philosophy of Quality Circle at a very young age which will help them to become a competent and better human being in future. Quality Circle will help students to build a habit of managing everything with facts and figures. Students will get a practice of working in a team which will make them a good team player and later on a good team leader. I appeal all the students to continue with QC philosophy through all your life and also ask all your other friends to join this movement.

Convention is a good opportunity to learn from others and so learn a lot, Make new friends and enjoy this convention.

I wish a great success to this convention and thanks Suncity School Management and organisers for conducting this National Convention on Students Quality Circle. I also thank QCFI Delhi Chapter for supporting this National Convention.

Regards,

**Satish Kalokhe**

President

Quality Circle Forum of India

## Message from Principal CMS School, Dr (Mrs) Vineeta Kamran

In the changing scenario, when the world is in the cusp of epochal changes, the challenge of educating and nurturing the children is very crucial and demands lot of reflection. The world of tomorrow entirely depends on how we take care of these aspects. Hence it is imperative that education must promote the principles of integrity, positive self esteem, self respect, self discipline and respect for the diversity of others.

Education must aim at not only grooming trained professional workers, but also contributing to the development of individuals who possess the skills to act and interact in a just society. Education will become Quality Education it allows people to participate in their communities and society in a constructive and respectable way for themselves and others. It must strive to deliver outcomes such as personal and social growth and opportunities for learners to develop critical thinking and lifeskills.

Quality education must focus on providing opportunities to the students to explore their interests and talents, develop their scientific temperament and prepare them to become conscious well rounded, self reliant, innovative and productive life long learners equipped to compete in and add value to the global society.

The Students' Quality Circles and various conventions on quality held in India and abroad, serve as a wonderful platform to address the afore mentioned objectives and provide ample opportunities to develop and harness their latent potentials.

I congratulate Ms Rupa Chakravarty, who is very illustrious, committed and dedicated Principal for hosting the 6<sup>th</sup> national Convention of Students' Quality Circle. This is certainly going to be a giant step towards sculpting better citizens by providing ample opportunities to students for developing a participative culture. I am sure that under her dynamic leadership it is going to be yet another milestone in the journey of quality. I wish her and her wonderful team a grand success.

**Dr Vineeta Kamran**

Principal &

Executive Director, WCQTEE

# INVITATION

6th  
NSQCC  
2018

Dear,

Greetings from Suncity School!

The most important resource that we have is each other.

Without collaboration, our growth is limited to our own perspectives,' is an axiom the 6th NSQCC at Suncity School, Gurugram, India, is based on. This thought provoking sentiment runs parallel to the ethos and foundation of the National Convention for Students Quality Control Circles (NSCQCC) that provides a perfect platform for the like-minded Education Fraternity to improve quality in education. On behalf of the Management, faculty and students of Suncity School,

I would like to extend an invitation to your institute for the 5th NSQCC being hosted by Suncity School in November, 2018 (Dates to be intimated soon)

This year's theme is '\*Quantum Quality' (60). This meaningful event will positively empower all by providing opportunities to learn from each other's perspectives and experiences that will come to the forefront with an array of specially designed events based on Multiple Intelligences. Our endeavor has been to intermingle Quality with MI — Multiple Intelligences.

Our school's significant journey with SOCC started in 2011. Ever since, we have worked tirelessly to grow laterally and vertically into quality global citizens.

Suncity school fraternity envisions to take this journey forward in unison with all of you...  
Sadaiva Agrani !!

**Sincerely**  
**Rupa Chakravarty**  
**Head of School**

**\* Quantum: a sudden, great & important change, improvement and development.**
